One Audio Limited (the company) is a public company domiciled in India and Incorporated under the provisions of Companies Act, 1956.

## 2. Basis of preparation

The Financial statements of the company have been prepared and presented in accordance with generally accepted accounting principles in India (Indian GAAP) under the historical cost convention on accrual basis of accounting, unless otherwise stated, and comply with and comply with the Accounting Standards as prescribed under section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014, the relevant provisions of the Companies Act, 2013.

## 3. Summary of significant accounting policies

### a) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the management of the company to make estimates and assumptions that affect the reported amounts of income and expenses during the reporting period and the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as on the date of the financial statements. Management believes that the estimates used in preparation of the financial statement are prudent and reasonable. Difference, if any, between the actual results and estimates is recognized in the period in which the results are known / materialize.

### b) Operating Cycle

Based on the nature of its activities, the Company has determined its operating cycle as 12 months for the purpose of classification of its Assets and Liabilities as current and non-current.

### c) Amounts in the financial statements are presented in Rs. lakh, except for per share data and as otherwise stated.

### d) Tangible fixed assets

Fixed assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses in existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gains or losses arising from derecognizing of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the fixed asset and are recognized in the statement of profit and loss when the asset is derecognized.

**e) Intangible assets**

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment, if any.

Internally generated intangible assets are not capitalized and expenditure is reflected in the statement of profit and loss in the year in which expenditure is incurred.

**f) Depreciation**

Depreciation on fixed assets is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by the management, or those prescribed under the Part C of Schedule II of the Companies Act, 2013, whichever is higher. Depreciation on additions during the year is provided on a pro-rata basis from the date of addition.

Intangible assets are amortized over their estimated useful life not exceeding 10 years on straight line method.

**g) Impairment**

Impairment losses (if any) on fixed assets are recognized in accordance with the Accounting Standard 28 "Impairment of Assets" issued in this regard by The Institute of Chartered Accountants of India. The Company assesses at each Balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the assets. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value.

**h) Revenue recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

**i) Taxes on Income**

Tax expense comprises current and deferred tax.

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961.

Deferred tax is recognized, subject to the consideration of prudence, on timing differences, being the difference between taxable incomes and accounting income that originate in one period and are capable of reversal in one or more subsequent periods using the tax rates and tax laws that have been enacted or substantially enacted as at the reporting date.

Deferred Tax Asset arising on account of unabsorbed tax losses and unabsorbed depreciation are accounted for on prudence basis when there is a virtual certainty that sufficient future taxable income will be available against which such deferred tax asset can be realized

**j) Earnings Per Share**

The Basic earnings per share and Diluted earnings per share have been computed in accordance with Accounting Standard (AS-20) on, "Earnings Per Share" and is also shown in the Statement of Profit and Loss.

# One Audio Limited

(formerly known as Mid-Day Radio North (India) Limited)

Notes to financial statements for the year ended on 31<sup>st</sup> March, 2018

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to the equity shareholders (after deducting preference dividends and attributable expenses) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity share outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share spilt and reverse share spilt (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

## k) Provisions

A provision is recognized when the company has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

## l) Contingent liabilities & assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent Assets are neither recognized nor disclosed in the financial statements.

## m) Cash Flow Statement

Cash flows are reported using the indirect method set out in Accounting Standard (AS 3) on Cash Flow Statement. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information. Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

### **Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2018, based on, "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".
